WHO AM I?

I'm a self-motivated, hard working, and analytical developer with a passion for learning, designing, and building anything to do with apps and computers.

I build applications for the web and mobile using tools and languages for both client and server apps as well as DevOps.

I pride myself on strong problem solving, logical thinking, and management skills.

EDUCATION

Humber College

Web Development

Post-Graduate Certificate 2017-2018

University of Guelph

Honours History

Bachelor of Arts 2011-2014

EXPERIENCE

Cetaris

July 2018 - Present

Front-end Developer

Building and maintaining Angular web and hybrid mobile applications. Working daily with Typescript, Sass, Nx, NgRx, RxJs, Jest, Cordova and Node.js.

Lead client developer on Fix and Vendor applications with over 10,000 active users, role includes working with designers and server developers to create UIs and app architecture, responding to and fixing bugs, creating builds and Android APKs, and mentoring junior developers.

Built a custom UI control library that includes searchable dropdowns, autocompletes, inputs, buttons, etc..

Agile workflow, using Team Foundation Server to manage tasks and version control.

Humber College

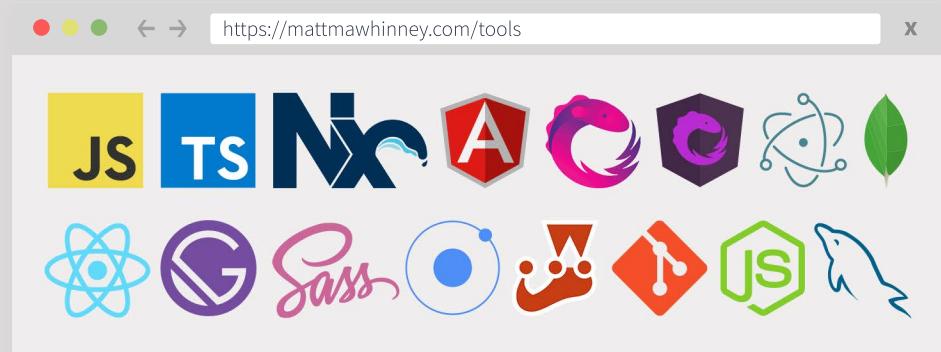

Sept 2017 - June 2018

Web Dev Post-Graduate Certificate

Full stack development including C# ASP.NET, PHP in Laravel, and Node.js with Express. Experience with MySQL, P/SQL, MSSQL, and MongoDB databases.

Led 4-5 person teams while completing extensive design, full-stack dev work, documentation and presentation of multi-disciplinary projects, while maintaining a 4.0 GPA.

TECHNOLOGY

RECENT PROJECTS

Node.ts

NODE.TS

A Node.js CLI/Framework for creating server APIs using Typescript and Express.
