WHO AM I?

I'm a self-motivated, hard working, and analytical developer with a passion for learning, designing, and building anything to do with apps and computers.

I build applications for the web and mobile using tools and languages for both client and server apps as well as DevOps.

I pride myself on strong problem solving, logical thinking, and management skills.

EDUCATION

Humber College
Web Development
Post-Graduate Certificate 2017-2018
